With the participation of Medical Associations of South East Asia Nations, sharing experiences in prevention and control COVID-19

Date: Saturday, 12th December 2020, Vietnam Time

### Scientific Webinar

## MASEAN: STRONGER TOGETHER AGAINST COVID-19

With the participation of Medical Associations of South East Asia Nations, sharing experiences in prevention and control COVID-19

The current Pandemic situation around the world (COVID-19) has continued to evolve with complexity, our countries in ASEAN continue to accelerate active measures to achieve dual objectives of economic development and disease control; and moving toward a safe coexistence with COVID-19. We would like to thank you the MASEAN members for sharing experiences and innovations in COVID-19 prevention and control.

Members of the ASEAN are enduring strategic partners as we respond to the COVID-19 pandemic and plan for economic recovery. We commit to continue our collaboration within MASEAN to beat this pandemic and get back to the business of building a bright future for the region together. Stronger together against COVID-19.

**Associate Professor Nguyen Thi Xuyen**

President of MASEAN

President of Vietnam Medical Association.
